

Agiplus Group won the 2021's China Real Estate Asset Management New Power "New & Excellent Enterprise of the Year" award

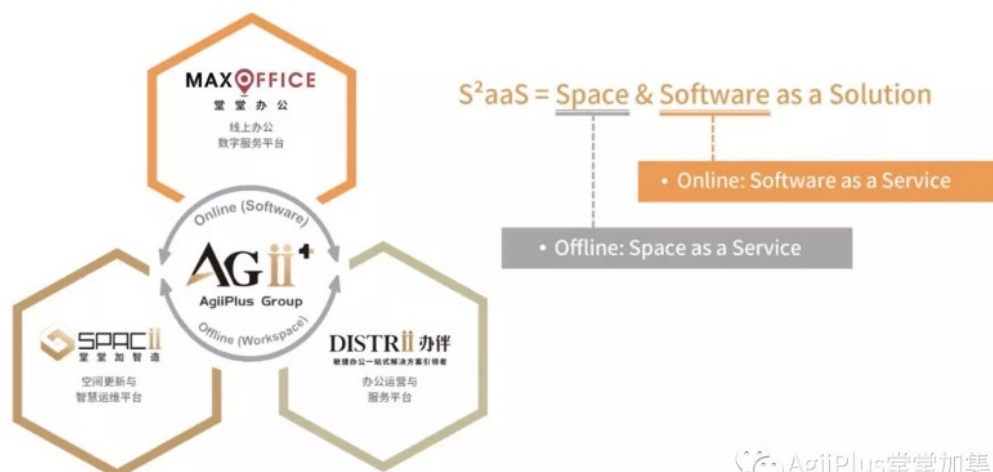

On December 9th, the "2021's 6th China Real Estate Asset Management Summit" co-sponsored by Ruihe Think Tank and Vansound Club was held in Shanghai. AgiiPlus Group was invited to attend and won the 2021's China Real Estate Asset Management New Power "New & Excellent Enterprise of the Year" award.

The 6th China Real Estate Asset Management Summit is under the official guidance of the Commercial Innovation Working Committee of the China Federation of Commerce, with the theme of "Renewing Vientiane and Going to the Future", focusing on new trends and new models after the start of urban renewal. The summit reviewed China's macroeconomic situation in 2021, and at the same time looked forward to the development pattern of the real estate industry in 2022, discussed the technological changes in urban renewal under new consumer trends, and unlocked the future of office revitalization and industrialization of space operations thinking.

As an agile office service platform for "Fast" companies, AgiiPlus Group based on its keen insight into the trend of business development in China and office requirements of fast growing enterprises. It has independently created unique business model—— S²aaS – Space & Software as a Solution, successfully combines "Software as a Service" and "Space as a Service" to provide fast growing enterprises with a full chain of agile office solutions beyond traditional office by integrating real estate technology (Prop-Tech), SaaS system tools, Internet of things technology and offline office space network. It also provides new ideas and practical experience for real estate management, especially in office space inventory update, operation management, fine services and the overall activation of commercial assets, showing unique insights and rapid development trend. This award of 2021's New Real Estate Management Force "New Excellent Enterprise of the Year" shows that the stage exploration results of AgiiPlus Group in real estate management have been highly recognized and affirmed by the industry.

Agiplus Group's gene was formed in 2015 and founded by Dr. Hu Jing, former executive vice president and chief architect of the world's top 500 enterprises. After six years of hard work and accumulation, the group has grasped the development opportunity of real estate asset management, integrated its three business segments, and promoted the integrated business operation in the field of commercial real estate with its collectivized organizational structure and business capability. At present, Agiiplus group has successfully built a business structure led by the "troika", provides SaaS-based Office Market place & Online Service Platform with "Maxoffice office", promoted Renovation, Maintenance & Smart Building Solutions with "Spacii", and provides Physical Flexible Workspaces with "Distrii", It realizes the complete closed loop of the whole chain of agile office service.

Online and Offline Integration

Industrial upgrading drives the upgrading of lifestyles, and it is more valuable urban renewal. Facing the new changes in the real estate field, AgiiPlus Group is committed to being a valuable urban renewal promoter, a pioneer of creative new offices, and will continue to deepen scientific and technological investment and practical exploration in the field of urban renewal, and inject space into wisdom and Spirituality opens the age of agility together with the city.
